Former Delegate Charles Kelly Arrives at New York From Europe.

ARREST FOLLOWS AT PHILADELPHIA.

Under indictments Charging Him On Several Counts With Bribery In Connection With Municipal Legislation at St. Louis.

New York, Nov. 28. - Charles F. Kelly, former speaker of the house of the White Star steamer Celtic, when she docked, says the Evening World. At the picr to meet him was Congressman-elect James J. Butler of St. Louis. Butler's bookkeeper, William J. Sullivan, and William Ratigan, a St. Louis contractor and neighbor of Keliy's, were his ship companions. Kelly's faco was white and wrinkled when he left the ship. He started when the reporter greeted him by name. Congressman Butler tried to shut the reporter off, but Kelly recognized him as a St. Louis acquaintance and extended his hand. "Please let me alone for today," he sald, "I have nothing to say. I have just received word that my son is dead, and I am going right back to St. Louis." Congressman-elect Butler denied that he had come to the pier to meet him. "I am here to meet my bookkeeper, Mr. Sullivan," he said.

Kelly, the former speaker of the St. Louis house of delegates left St. Louis several months ago, soon after the grand jury had returned indictments charging him on several counts with bribery in connection with municipal legislation for street railway and other franchises. His bonds were fixed at \$30,000. Kelly, It is charged, is the man who distributed the \$47,500 boodle fund among members of the house combine three years ago for the passage of the city lighting bill. Until his return his whereabouts were unknown to the authoritles. A reward of \$300, offered by the state, for Kelly's arrest still stands.

Kelly Arrested. Philadelphia, Nov. 28. — Ciples F. Kelly, formerly president of the house of delegates of St. Louis, was arrested in this city. Kelly will be held for requisition papers.

Too Late For Testlmony. St. Louis, Nov. 28.—Chief of Police Kiely has telegraphed to New York, Philadelphia and intermediate points; asking the authorities to arrest Kelly. It is believed by Kelly's friends that he will try to evade arrest, and after reaching St. Louis give bond. It is now too late for him to give any testimony before the grand jury, which adjourned Friday afternoon, on the city lighting deal. Because of the statute of Ilmitations, Friday was the last day on which any one connected with the lighting deal can be indicted.

> Criticises the Emperor's Speech. Berlin, Nov. 28. - The Vorwaerts, commenting on Emperor William's speech on the day of the funeral of Herr Krupp at Essen, says: "While prosecution is still pending against us, and the truth is not judicially yet ascertained, tho emperor anticipates the court's findings by pronouncing our guilt out of hand. Is It allowed that the crown at the initiatory stage of a pending case utter a verdict, and thereby place the judges in the painfui dilemma of either contradicting his majesty or subjecting themselves to the suspicion that their judgment was influenced by him? Justice stands abovo everybody, even above the emperor, and the freedom of courts is life and nerve of every state." The paper adds: "The monarchy is constitutionally irresponsible. An adequato answer to the emperor's speech is prevented through the lese majeste paragraphs."

During the recent campaign Republicans resoluted in favor of a revision of the tariff, but they wanted the work done by friends of the system. Now their leaders have decided that there is to be no tariff revision. In arriving at this conclusion they were, of course, aided to a great extent by the trusts, says the Georgetown (O.) News-Democrat. "It will be interesting," adds the Democrat, "to watch with what tenderness and circumlocution the tariff and the trusts are handled from now until November, 1904."

NEW YORK, Nov. 22, 1902.—The really important news of the week was the discovery that the financial heads of the big railroad systems of this country had decided to institute a series of advances in freight rates, for the purpose of partly making up for the 10 per cent, raise in the wages of their employes. This ls striking confirmation of the statement made recently in this paper that the railroad chiefs had combined to prevent strikes and to otherwise protect their interests. But they are too shrewd to force a general advance in transportation schedules. This would bring down on their heads public indignation. They will begin with some of the great commodities which have been carried at extremely low rates, such as grain, dressed beef, live stock, iron, steei, &c.

What a generous set one finds at the head of the big corporations! Some of them are making a big blow about their advance in the wages of their employes. Now they intend to make other people pay this increase, while they claim all the credit for it.

THE MEDICS IN COUNCIL.

Physicians Enjoy a Thanksgiving Love Feast at Their Monthly Meeting This Week.

The Mason County Medical Society, as stated yesterday, held its monthly meeting on Wednesday afternoon and the occasion was made peculiarly interesting by the presence of two distinguished visitors-Dr McCormack the Secretary of the State Board of Health, and Dr. Wells, of Cynthiana, the Medical Director of this district. The address from Dr. Mc-Cormack was well received. The doctor found a medical body before him that had been an active and useful organization for three years. His duties as an inspector, reorganizer and pacificator were therefore very light. In the beginning of his address he launched into a strenuous defense of his somewhat aggressive pesthouse policy, and feelingly commiser- Boys' and Girls' Rally Day at the Christian ated the morbid susceptibility that squeals under the operation of statutory The boys' and girls' rally day exercise of the material for the building was furlaws. But bad as the doctor is, he is better than the clergyman who is decorously deadheaded into Klngdom Come. To make the medicated clergymen properly appreciative he must be made to pay. At present the clerical patronage and appreciation are reserved chiefly for quack institutions and manufacturers of patent medicine. But the speaker repelled the imputation of pessimism. He resents every suggestion of the sort. He sees a brilliant future opening for the profession to which he la devoting his reformatory energies, and was pleased to see so strong a disposition in the profession of this county to push on the good work. The doctor was listened to with attention throughout and received a unanimous vote of thanks for his interesting address. He was followed by Dr. Wells in a few remarks along the same lines, which were admirably conceived and expressed.

Altogether it was a breezy and entlusiastic meeting and amply sustained the reputation which the society has established in the State.

Physicians desiring to connect themselves with the society will make immediate application to the Secretary, Dr. A. G. Browning. Annual dues, (county, State and national), eight dollars.
